CUSTOMIZATION

#### SOUNDPROOF / SOUND INSULATION

The wall of the soundproof room is composed of sound-absorbing cotton + MDF (hollow structure) and 10mm thick soundproof tempered glass, and the sound insulation and noise reduction index meets the design expectations.

#### VENTILATED

Each soundproof room is designed with a labyrinth-like low-noise fresh air system composed of ultra-thin + ultra-quiet fresh air exhaust fan + PD principle long-path soundproof air duct. It only takes 3-5 minutes to renew the indoor air. Large-sized soundproof rooms can be equipped with air conditioning.

#### LIGHTING

The booth is equipped with 3000-6000K three-color temperature adjustable LED ceiling lights, which can basically meet the lighting needs of the booth.

#### 100-240V POWER

Every Booth is equipped with 100-240V/50-60Hz and 12V-USB power supply system, which can easily meet the use of mainstream electrical appliances in life.

#### Solo Working

Quiet and focused environment for an individual

#### Phone Calls & Video Conferences

Perfect setting for important phone calls or participating in virtual meetings

#### Group Meetings

Small group discussion could happen here without disturbing others

#### Private Conversations

Ideal for confidential discussions or one-on-one meetings

#### Reading & Meditation

Creating an ideal space for personal reflection or diving into a good book

#### Rapid Installation

The modular design allows an office to have a new room within several hours
